OBJECTIVE

Aspiring Data Analyst with strong knowledge of Python, SQL, Excel, NumPy, Pandas, Matplotlib, and Exploratory Data Analysis (EDA). Passionate about transforming raw data into meaningful insights, creating dashboards, and solving business problems using data-driven decision making.

SKILLS

- **Programming:** Python, SQL
- **Data Analysis:** Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization
- **Python Libraries:** NumPy, Pandas, Matplotlib
- **Tools:** Excel, Power BI, Jupyter Notebook, Git, GitHub

Projects & Virtual Experience

1. Tata Data Visualization Virtual Experience Program – Forage

- Created interactive Power BI dashboards to analyze revenue trends, customer insights, and global demand patterns.
- Performed data cleaning, revenue calculations, and business-focused visualization analysis.
- Presented strategic insights for CEO and CMO decision-making using data storytelling techniques.

2. Quantum Data Analytics Virtual Experience Program – Forage

- Conducted customer segmentation and sales analysis using Python, Pandas, Matplotlib, and Seaborn.
- Performed trial vs control store experimentation analysis to evaluate store layout performance.
- Generated business recommendations using customer analytics and data-driven insights

3. Sales Data Analysis Dashboard

- Analyzed sales datasets using Python, Pandas, and NumPy to identify trends and business insights.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA).
- Created visualizations using Matplotlib and Excel dashboards for better decision making.
- Generated reports on sales performance, customer behavior, and revenue growth.

CERTIFICATIONS

- Tata Data Visualization Virtual Experience Program – Forage
- British Airways Data Science Virtual Experience Program – Forage
- Quantum Data Analytics Virtual Experience Program – Forage

EDUCATION

BCA – Artificial Intelligence & Machine Learning
D.Y. Patil University, Ambi, Pune (2023–2026)

ACHIEVEMENTS

- Completed real-world data analytics and visualization projects using Python, SQL, Excel, and Power BI.
- Built dashboards, predictive models, and business reports to generate actionable insights.
- Developed strong skills in EDA, customer analytics, data visualization, and business reporting.
